[Assessor Handbook](#) [1]

The Bronze INGOTs are entry level certificates that each require between 10 and 20 hours of study and practice for a complete beginner. Achieving a bronze certificate is not age dependent but capability dependent. When an accredited Bronze INGOT assessor is satisfied that the student can competently match the criteria, a Bronze INGOT certificate can be awarded.

Archived Moodle course for download

The link is to an **archived Moodle course** you are free to download and include in your own Moodle. It will be updated from time to time with improvements. Please feel free to improve and submit back. [Bronze Moodle](#) [2]

How to teach the INGOT criteria

As the teacher, **you decide** how to teach to cover the INGOT criteria. But here are some ideas that you might find useful.

Suggestion for Bronze We have prepared a set of [sample lessons](#) [3] to support the Bronze 2 and Bronze 3 certificates. The zip file includes the lessons in PDF and ODF format, as well as a set of supporting files.

[Here](#) [4] there is a quiz to help with naming the parts of a computer for the Bronze 1 certificate. Thanks to Mr Ray Tolley.

Suggestion for Bronze Get a copy of the OpenOffice.org Getting Started Guide ([buy](#) [5]/ [download](#) [6]) and cover chapters 2, 3, 4, 6, 8 and 9. If time allows, cover chapter 13. **Suggestion for Bronze** Itrainonline has 3-hour lessons for [OpenOffice.org Writer](#) [7] and [OpenOffice.org Impress](#) [8]. Use the OpenOffice.org [Getting Started Guide](#) [9] chapter 8 for the drawing component.

Internet Safety

[The story of little red training shoe](#) [12]

How to explain open source

For the Bronze level, the pupil should gain a basic (non-technical) understanding of what open source is. [See the Japanese Fruit Grower fairy tale](#) [13].

Open Systems Mobile Phone
