

Introduction

Introduction

This is a useful informative website about computer security. This is for you a s parents of the brownies children to read and reflect on. It is also so that you can teach them about computer security at their ages. It tells you about what you can do to keep the things saved onto your computer safe and secure. It also contains information about viruses; the damage they can cause, and other important topics to do with viruses and the severe consequences it can cause. Other important information is about the importance of backing up your work and what you can back it up to. It also informs you about what a hacker is and what damage they can cause to your computer. It also tells you how you can stop them from getting onto your computer.
