

Computer Security Website-Home

Welcome to a site
on...

[HACKERS](#) [1]
[VIRUSES](#) [2]
[BACK-UPS](#) [3]

This is a site on computer security and how to be safe on your computer. I made this site to inform you on how to keep safe on your computers or laptops. If you click on the words to the left it will lead you to pages that will explain what they are and other facts as well. Also if you click [here](#) [4] you can get to the glossary explaining loads of words that you may not understand.

Hackers: a programmer who breaks into computer systems in order to steal or change or destroy information as a form

Viruses: a software program capable of reproducing itself and usually capable of causing great harm to files or other programs on the same computer; "a true virus

Back-Ups: In information technology, a backup or the process of backing up refers to making copies of data so that these additional copies may be used to restore the original
