

Patchwork and Quilting for a hobby

Welcome to my web site.

Introduction to a new hobby

It is very hard to know where to start a new hobby but it is always best to start with something simple and build your confidence.

There is a certain amount of things you will need to buy if you are not already a sewer, you can sew by hand or machine so it is not necessary to make the big purchase of a machine until you are sure you like the hobby.

You will need needles, pins, scissors, cotton, fabric, a ruler, a pencil, and this will get you started,

The best thing to start with is a cushion cover which will give you a good idea of the implications without being too daunting.
