	 *Back-Ups*		

In [Information Technology](#) , a **backup** or the process of **backing up** refers to making copies of [data](#) so

What is a back up?*

that these additional copies may be used to *restore* the original after a [data loss](#) event. The verb form is *back*

up in two words, whereas the noun is *backup* (often used like an adjective in compound nouns).

For example it is like a ghost fighting a pacman. The ghost dies and so another one is created - a back up.

You can back up your work by saving it on to a memory stick of hard drive to ensure that you can enter the file if your computer somehow lost it. You usually back up important files that are hard to replace.
