

Computer Security 5

	Backup!! YES!! Backup!!	
	Backup is the process of coping your files into another storage space incase of any data lost	
	<p>Ok... things you should backup you should backup you important project of homework because I don't want to redo it again... do you ?? Also backup your memories such as pictures or video because once you lose them you can't think you want to spend time and money repurchasing it .</p> <p>Now.. you know what you should backup ... where and what storage space should you use</p> <p>External Hard Disk:</p> <p>Pros: It has a VERY big storage space</p> <p>Cons : It is big and heavy so it is hard to travel with</p> <p>USB Storage:</p> <p>Pros: Small,Fast,Light and Handy</p> <p>Cons: Easy to lose and doesn't have a very big storage space</p> <p>Online Storage:</p> <p>Pros: Handy as you can get into the information anywhere anytime with wifi , its easy to use and also it is free</p> <p>Cons: you never know when the company will shut down and also it is not 100% reliable</p> <p>Printout:</p> <p>Pros : light and also can be read when ever you like</p> <p>Cons: Easy to be damage eg. water spillage</p> <p>Recordable CD/DVD</p> <p>Pros: Very Cheap</p> <p>Cons: you'll need a DVD/CD player to use and also it can be damage easily eg: snapped</p>
