

## Silver academies

A **Silver Academy** has at least one qualified Silver INGOT **assessor trainer**. The assessor trainer can grant assessor status at Bronze or Silver level to anyone, not just those within the Academy.

A Silver Academy can **generate income** by running courses for assessors in other schools and organisations and it can run courses leading to certification, if it so desires.

A Silver academy has a **Principal Assessor** who is responsible for standards within the academy and accountable for these standards to The Learning Machine Ltd. The Principal Assessor must be an **assessor trainer**.

Silver academies will generally work towards a position where all members of the organisation capable of achieving Silver level will be certificated with the Silver INGOT. There will be a culture of striving for good operating practice and sharing this with others.
