

## Create a page

### [Blog Entry](#) [1]

A blog is a regularly updated journal or diary made up of individual posts shown in reversed chronological order. Blogs are used to document Gold INGOT projects (see [guidance for projects](#) [2]).

### [e-Portfolio](#) [3]

To create an e-portfolio you need to create new pages on this site. Be sure to plan your e-portfolio properly. [Learn how to setup your e-Portfolio](#) [4].

### [Public Page](#) [5]

A public page is a page that can be edited by anyone in the world. This type of page is often useful for collaborative projects involving several people.

### [Page](#) [3]

If you want to add a static page, like a contact page or an about page, use a page.
