

Enable Javascript

Some features of the Ingot website require Javascript. Javascript is not the same thing as "Java" (we can thank Netscape's marketing department for the confusion).

What web browser do you have?

- [Internet Explorer](#)
- [Mozilla Firefox](#)
- [Netscape](#)

Internet Explorer

Determine your browser version

Select **Help > About Internet Explorer**. The version number is located on the splash screen that appears.

[IE Version 3](#)

[IE Version 4](#)

[IE Version 5](#)

[IE Version 6](#)

Internet Explorer 3

1. Select **View > Internet Options**, and then click the Security tab.
- 2 . Verify that the four 'Active Content' boxes are all checked.
- 3 . Click OK.

Internet Explorer 4

1. Select **View > Internet Options**, and then click the Security tab.
- 2 . In the Zone box, click Restricted Sites Zone.
- 3 . Click Custom (For Expert Users), and then click Settings.
- 4 . Under Active Scripting, click Prompt, and then click OK.
- 5 . Click OK, and then click OK again.

Internet Explorer 5

1. Select **Tools > Internet Options**, and then click the Security tab.
- 2 . Click on the earth "Internet" icon, and then the Custom Level button.
- 3 . Scroll to the bottom of the Settings list, and locate the section named Scripting.
- 4 . Under the subsection Active Scripting, click Enable. Answer Yes to the confirm box that pops up.

Enable Javascript

-->

5

. Click OK, and then click OK again.

Internet Explorer 6

1. Select **Tools > Internet Options**, and then click the Security tab.

2

. Click on the earth "Internet" icon, and then the Custom Level button.

3

. Scroll to the bottom of the Settings list, and locate the section named Scripting.

4

. Under the subsection Active Scripting, click Enable. Click OK.

5

. Answer Yes to the confirm box that pops up. Click OK.

Mozilla Firefox

Determine your browser version

Select **Help > About Mozilla Firefox**. The version number is located at the top of the page that appears.

Firefox 2

1. Select **Edit > Preferences OR Tools > Options**

2. Select "Content".

3. Select "Enable JavaScript".

5. Click Close.

Netscape

Determine your browser version

Select **Help > About Netscape**. The version number is located at the top of the page that appears.

[Netscape 3](#)

[Netscape 4](#)

[Netscape 6](#)

Netscape Navigator 3

1. Select **Options > Network Preferences**.

2

. Click the 'Languages' tab and click the 'Enable Javascript' option.

3

. Click OK.

Netscape Communicator 4

1. Select **Edit > Preferences**.

2

. In the "Category" list, click on 'Advanced'.

3

. Click the 'Enable Javascript' option.

4

. Click OK.

Netscape Communicator 6

1. Select **Edit >**

Enable Javascript

-->

Preferences.

2

. In the "Category" list, click on 'Advanced'.

3

. Click the 'Enable Javascript for Navigator' option.

4

. Click OK.
