Budget comments
All partners have some management days to contribute to this work package. Travel budgetsare intended to support mobilities to meet the lead partner to take and discuss their local information relevant to the manual and to direct the research efforts of the lead partner. This is not rigid and travel budget can be used in agreement with the lead partner for WP6 for other events as long as the budget overall is not exceeded. Lead partner is assumed to not need to travel but to collect and collate information from other partners.

Associated Deliverables

- Open Systems Reference Manual (Result 6)
