

Example Test for Level 1 and 2 certificate

For this test you need to have an account on the INGOT community site and your candidate number ready. You have 45 minutes from the time that you create your page to complete the tasks and answer the questions.

Tasks

1. Log on to the INGOT community site.
2. Create a "Regular Page".
3. Give the page a title using your user id number and Test L1-2 (eg Candidate number 99875 TestL1-2)
4. Save the page (this records the time with your page and you have 45 minutes from the time the page is first saved for the rest of the test. Remember to save work regularly) (3 marks)
5. Download the image at <http://the.ingots.org/community/image1> to your computer and then upload it to your user area on the INGOT community site. (2 marks)
6. Format the picture with a 5 pixel space around it to the top left hand side of your newly created page (2 marks)
7. Use an internet search to find some text about the character whose name is Wilber, the mascot of the GIMP project
8. Make a side heading using Heading Format 2 with the name Wilber (1 mark)
9. Combine the heading, picture and text to make a neat short presentation about Wilber (2 marks)
10. Make a link from your heading to the page where you found the text about Wilber (2 marks)

Questions

Copy each of the questions below to your page and make it bold to stand out. Write a short answer to each of the questions in your web page below the question. (1 mark)

1. Name a software application that could be used to prepare an image for use on the internet. (1 mark)
2. Which of the following words might have prevented you from legally using the Wilber image? Copyleft, Copyright, Copyup, Copydown. (1 mark)
3. Name a risk when using collaborative internet technologies. (1 mark)
4. Name one advantage of using your web page to provide answers to these questions instead of writing them on paper?

Example Test for Level 1 and 2 certificate

-->

(1 mark)

5. Describe briefly how you would take a scanned image in .bmp format and prepare it for display in a web page.

(3 marks)

6. On the INGOT community site, your web page is licensed as Creative Commons Share-alike. What rights and restrictions does this give to other people?

(2 marks)

7. Describe giving at least two reasons, why using an open standard file format for Wiber's image is important.

(2 marks)

Total 24 marks. 12 marks for level 1 and 19 for level 2
